

## *Report to the Auburn City Council*

Action Item

Agenda Item No. **4**City Manager Approval  

**To:** Mayor and City Council Members  
**From:** Bernie Schroeder, Director of Public Works   
Megan Siren, Administrative Analyst   
**Date:** August 12, 2013  
**Subject:** Corporation Yard Equipment Purchase – Shop Hoist

### **The Issue**

Shall the City of Auburn approve the purchase of a Shop Hoist for the Public Works Corporation Yard Division?

### **Conclusion and Recommendation**

Staff recommends that Council, BY RESOLUTION, authorize the Director of Public Works to purchase a Shop Hoist from Eagle Automotive Equipment in an amount not to exceed \$18,000.

### **Background**

The Corporation Yard Shop currently has 2 shop hoists that are utilized to maintain City vehicles and equipment. One of the shop hoists was installed in 1978 and due to the age, staff has a difficult time finding parts for the hoist and has concerns regarding its safe operation. In addition, this older hoist doesn't have the capability to service many of the City vehicles due to the size and weight of several of our newer City vehicles/equipment. The Corporation Yard Shop needs to maintain the availability of two shop hoists due to the frequent use of the hoists. One hoist has the potential to be utilized for several days and up to weeks due to the nature of the vehicles need for repair.

The proposed new shop hoist is a Challenger 12,000 pound 2 post hoist that will be installed in the City Corporation Yard Shop's third repair bay in the location of the existing hoist.

Publics Works Corporation Yard Staff received bids from 3 firms. Staff has determined that the lowest responsive bidder is Eagle Automotive Equipment from Mountain Ranch, California in the amount of \$17,845.48.

### **Alternatives Available to Council; Implications of Alternatives**

1. Proceed with Staff Recommendation
2. Do not proceed with staff recommendation

### **Fiscal Impact**

The FY 2013/14 Approved Operating Budget includes the purchase of the Shop Hoist with funding in the amount of \$18,000. The shop hoist will be purchased from the FEP Fund.
